MEMORANDUM

From:	Stacey Inglis Contaminated Land Officer	**To:**	Philip Mullineux Principal Planning Officer
Our Ref:	P/2026/0445	**Your Ref:**	P/2026/0445
Date:	30 September 2026	**No. of Pages:**	2

TOWN AND COUNTRY PLANNING ACT 1990

P/2026/0445 – ERECTION OF 1 DETACHED BUILDING (CLASS D2) AND 1 DETACHED BUILDING (CLASS B8) WITH ASSOCIATED PARKING AND SERVICING AREAS

UNIT 31, MINERS ROAD, LLAY INDUSTRIAL ESTATE, LLAY, WREXHAM, LL12 0PJ

Due to the potential for land contamination because of the former uses including mining of coal and lignite, factory and general industrial usage since becoming Llay Industrial Estate as well as a non-water fill, I would recommend that any future planning consent is conditioned to ensure that any potential contamination issues are adequately dealt with. I would recommend the following conditions are applied to the above application if permission is granted.

Conditions

ZP01B CONTAMINATED LAND – PHASED INVESTIGATION
No development shall take place until a phased site investigation of the nature and extent of contamination has been carried out and submitted to and approved in writing by the Local Planning Authority. If any contamination is found during the site investigation, no part of the development shall commence until a scheme specifying the measures that will be taken to remediate the site to render it suitable for the development hereby permitted has been submitted to and approved in writing by the local planning authority. The site shall thereafter be remediated in accordance with the approved scheme. If during the course of development any contamination is found that has not been identified in the site investigation, no further development shall take place on those parts of the site where that contamination has been found until an additional scheme of remediation has been submitted to and approved in writing by the local planning authority for those parts of the site. The relevant parts of the site shall thereafter be remediated in accordance with the additional scheme of remediation.

ZP02A VERIFICATION REPORT - CONTAMINATED LAND

Each part of the site subject to the remediation under the scheme(s) approved as part of condition @@ shall not be occupied/used until a Validation Report has been completed in respect of that part of the site and submitted to and approved in writing by the Local Planning Authority.

Informative

INF03 - SITE CONTAMINATION
Further advice on compliance with condition no. @@ may be obtained by contacting the Council's Contaminated Land Officer on 01978 298771 or 297773. Should the investigation identify contamination issues that may affect receptors other than the site users e.g. groundwater, then it is recommended that these works are also addressed in consultation with the Contaminated Land Officer prior to commencement of works on site.
