Good afternoon Lauren,

Regarding the application referenced above.

Information held within the Regional Historic Environment Record (HER) shows that the proposed roof mounted solar panels are within the curtilage of the Grade II listed building the *Cow-house with attached Cart-shed and Stables at Llangwryd Uchaf* (PRN: 80886). Whilst there are no archaeological matters to be addressed as the solar panels are on the roof of a modern structure to the rear of the property, they will be visible from the road and may impact on the setting of the Listed Building, as such the local **Built Heritage Conservation Officer should be consulted.**

Kind Regards,

Karl Macrow
